Professional Summary

Business Intelligence professional specializing in KPI development, executive dashboards, automation, and enterprise analytics. Proven ability to transform complex business challenges into measurable outcomes, delivering more than \$497K in documented cost savings while enabling data-driven decision-making.

Key Skills

Business Intelligence & Executive Dashboards | KPI Strategy & Performance Measurement | Executive Reporting & Data Visualization | Financial & Operational Analytics | Intelligent Process Automation | Data Engineering & Integration | Cross-Functional Consulting

Professional Experience

Senior Technical Spec, HMM, Remote | Mar 2023 - Present

Lead business intelligence, automation, and data engineering initiatives that transform complex business problems into scalable analytics solutions, executive dashboards, and AI-powered workflows.

- **Developed an enterprise Productivity Dashboard** built on **5 custom productivity KPIs** defined with leadership, giving executives visibility into organizational performance and strategic decision-making.
- **Designed a Proactive Compliance Dashboard** that transformed a **3-week reporting process into real-time insights**, forecasting IP asset expirations for 2–3 year budgeting and vendor planning.
- **Automated large-scale content processing** by transforming unstructured PDFs into AI-ready datasets, delivering \$222K in cost savings while reducing manual effort.
- **Built a real-time VPAT reporting solution** that improved product accessibility visibility, eliminated a 2-week reporting process, and delivered **\$275.4K in cost savings** to date.
- **Engineered data pipelines** integrating **73M+ Box metadata records**, enabling forecasting, archive planning, and enterprise reporting.

Math Teacher, Atlanta Public Schools, Atlanta, GA | Jul 2021 – Mar 2023

Used data analysis, reporting, and instructional analytics to improve student achievement and support data-informed decision-making across the school.

- **Analyzed PowerSchool and student performance data** to identify learning trends and inform instructional strategies, contributing to a **12% increase in student achievement**.
- **Automated performance reporting processes**, reducing administrative effort by **40%** while improving data visibility for instructional leadership.

Lead Math Teacher, Freedom Preparatory Academy Charter Schools, Memphis, TN | Jul 2017 – Jun 2021

Led data-driven instructional initiatives, coached educators on analytics-based practices, and used performance data to improve student outcomes.

- **Interpreted daily performance data** to segment learners and personalize instruction, increasing proficiency and advanced outcomes by **15%**.
- **Led professional development on data-informed instructional practices**, increasing adoption of analytics tools and evidence-based decision-making across teaching staff.
